

## Role Responsibilities

### Club Structure

### All Members

- Every member must contribute equally to the assignment if they are on a team. If there are team members who are not contributing their fair share, they may be subject to a Board Review.
- An MVP (Minimum Viable Product) must be ready by the Internal Reception, so that you can get feedback from others.

## New Members

- Responsible for performing acceptably in training program and New Member Mobile Dev Core.
- Responsible for making an app by the end of the semester.
- They get to be the littles in the MDB Big-Little contest (where Bigs can be anyone from marketing & outreach team or development teams).
- Consistently submitting assignment late or receiving low grades will result in a Board Review.
- Follow the GSI Rule when asking for help: Google > Senior Devs > Instructor

## Senior Devs

- Responsible for making sure new members understand training content.
- Answer questions from new members on piazza and slack.
- Must meet their respective deadlines for preparing training program content and follow training program flow.

## Instructors

- Responsible for preparing training content in a timely manor.
- Makes sure Senior Devs are helping new members understand content.
- Manages Piazza page.
- If there are any issues with Senior Devs or New Members, they must let the VP of New Members and the VP of Internal know.
- Must be present in board reviews (for only new members)
- Must meet their respective deadlines for preparing training program content and follow training program flow.

## DevCore

- Responsible for making a mobile app at the end of the semester.

## DevCore - PM's

- Makes sure everyone on team is on task
- Also has same responsibilities as normal DevCore member
- Manages team freedcamp and assigns stories
- Manages the team MDB github org repo (codereviews & pull requests)

## Web Team

- Responsible for completing training program content (mini-projects, assignments, product stories).
- You will also be responsible for working on the web team product.

## Web Team - Head

- Responsible for teaching web training program content to web team members.
- Responsible for project managing and architecting the web team project.
- Responsible for ensuring that the project gets published (bug free) by end of semester.

## Contract Team

- Responsible for completing the client's business solution by set time designated by the client.
- Must complete stories assigned to them by the contract team head.

## Contract Team - PM/Architect

- Responsible for making sure that the client's contract is completed (bug-free) and to the clients liking.
- Must make sure that team members are on task.

## Marketing Team

- Must take on tasks assigned by Director of External Affairs
- Responsible for equally contributing to the public face of MDB.

## Exploration Members

- Responsible for submitting proposal of their deliverables to leadership in order to validate the work members will be doing during the semester.
