

Big Little Program

Overview

The Big Little Program is a peer to peer system that fosters a healthy community of mentorship, friendship, and teamwork. By pairing incoming members with returning members the program hopes to provide encouragement, information, and insight for the future of the organization. The pairs each build strong bonds through various socials and meet-ups organized throughout the semester. It is structured as a competition where pairs can get points and even win a prize at the end of the semester.

Major Events

On February 11th, Saturday night, there will be a Pieology dinner social and kickback. This will be the best opportunity to meet all members participating in the program. By the night the bigs will send in their preferences and will have their little.

Guidelines

The entire competition will be hosted on Slack moderated by the IVP. Points will be earned through uploading images in the channel and the leaderboard will be announced every week. Any major issues will be communicated directly through the channel.

Points

Academic study session - 1

Small social event - 2

Large social event - 5

Example: 4-5 hour event or movie night or small kickback or hike, basically something other than the norm, run by me first if you are not sure

MDB social event - 7

Bonus - +1 for each pair of big-little you bring along with maximum of 5 bonus points

If a pair has any questions about a the point value for a social they have planned contact the IVP. All final points will be determined by the moderator.
