Inactive Policy

The following policy describes the expectations of inactive members.

Overview

An Inactive Semester is a small hiatus a member may choose to take during his/her MDB membership. This option is reserved for members who have strong conflicts and truly need a semester off before returning as a member again. An inactive member is still a part of the organization but does not fully contribute to the DevCycle.

Requirements

- Must have completed two consecutive semesters in order to request inactive status.
- Members can only have one inactive semester total before they do not have a guaranteed spot in the organization
- Must attend Welcome Back Meeting, Internal Reception, and App Fair.
- Inactive members welcome to stop by meeting and come to other major events
- Certain events and programs such as the big-little program, socials, banquet, and retreat will be reserved for active members.
